

AOV Air 4G 5MP

4G LTE

The AOV Air 4G utilizes leading **AOV (Always On Video)** technology, addressing common pain points of traditional battery-powered cameras, such as detection latency, incomplete recording, and excessively short detection distances. The camera connects via **4G LTE**, providing flexible and stable connectivity while minimizing interference for stronger and more reliable signal transmission. With **5MP** resolution and a built-in spotlight, it provides clear, sharp, and vibrant HD video, day or night. Equipped with **IMOU SENSE** AI technology, the camera supports intelligent people and vehicle detection, and immediately sends a notification to the app upon detecting an alarm event.. The camera is equipped with a built-in 5,000 mAh rechargeable battery and can operate independently. Operating time varies with settings, temperature, network conditions and use.
