

SF110P

10-Port 10/100Mbps PoE Switch

SF110P is an unmanaged switch with 2 100M uplink ports and 8 100M PoE ports. Compliant with IEEE 802.3af/at, it can power up PoE enabled clients like IP cameras. The total maximum power of the switch is 65W, up to 30W output for a single port. It supports 250m long distance PoE.

Dual Uplink Ports

Connect to NVR and routers simultaneously

Support Standard PoE

Compliant with 802.3af/at

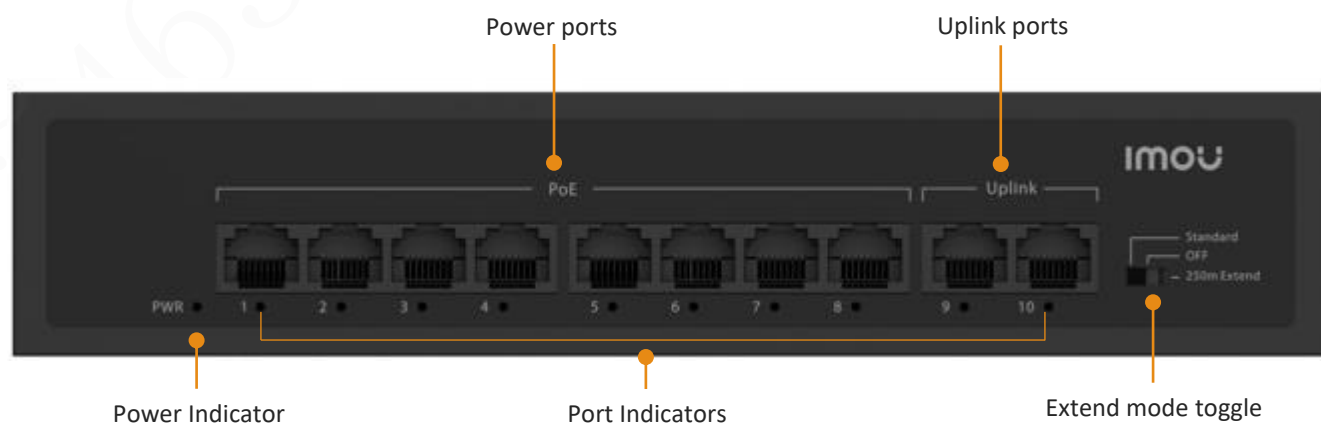

Extend Mode

Support up to 250m long distance transmission

Reliable Design

Metal Casing

Specifications

Hardware

Chipset	IP178G + IP175G
Network Port	8x 10/100 M PoE ports, 2x 10/100M Uplink ports
LED Indicator	1x Power, 10x Link/Ack
Button	Extend mode toggle

Performance

Category	Unmanaged Switch
Switching Capacity	1.6Gbps
Packet Forwarding Rate	1.488Mbps
MAC Table Size	2K
Surge Protection	Common Mode: 4KV Differential Mode: 2KV

PoE

PoE Standard	IEEE 802.3af/at
Power Budget	Total: ≤ 65W Port 1-8: ≤30W
Long distance PoE	Yes, 250m

General

Power Input	AC100~240V
Power Output	52V/1.25A 65W
Material of the Casing	Metal
Installation Method	Desktop/wall-mount
Working Environment	-10°C~+40°C, 10~90%RH
Dimension(L×W×H)	220 x 162 x 43.2mm
Certification	CE
