		Solid green: Connected to the Internet.

Connect to the Internet

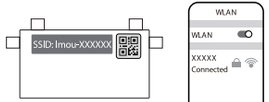

1. Power off the modem.
2. Connect the modem's LAN port with an Ethernet cable (RJ45) to the router's WAN port.
   - If your Internet connection is through an Ethernet cable directly from the wall, connect the other end of Ethernet cable to the router's WAN port.
3. Connect the power adapter to the router's DC-IN and turn it on.
4. Plug in the modem's power adapter.

Set Up the Network

Method 1: Use a Web Browser

1. Connect your device to the router wirelessly or with an Ethernet cable.

- The default Wi-Fi network name (SSID) is printed on the label at the bottom of the router.
- For security, change to a unique SSID and assign a password.

2. Launch a web browser. Key in **http://imouwifi.net** in the address bar. Read and accept the agreement and click Try Now.

3. Follow the on-screen instructions to set up the Internet connection.

Method 2: Use the Imou Life App

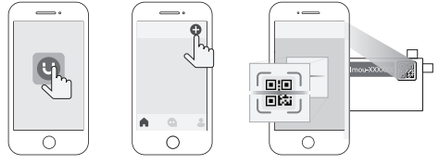

1. Download the Imou Life App.

2. Open the Imou Life App and log in.

If you are a new user, please register an account first.

3. Add your devices. Follow the instructions on the app to complete the setup and connect to the Internet.

FAQ

Q1: What should I do if I can't access the router's management page?

- Reboot your router and try again.
- Check your Wi-Fi connection.
- Use another Web browser such as Google Chrome.
- Restart your device.

Q2: What should I do if I can't access Internet?

- Reboot your modem and router, then try again.
- Check the Internet is working. With an Ethernet cable connecting the modem to the computer directly.

Q3: What can I do if I forget my wireless network password?

- If you have not changed the default wireless password, it can be found on the label at the back of the router.
- Connect your computer to the router via an Ethernet cable. Log in to the web management page at IP Address: 192.168.10.1 and go to **Install** > **Wireless** to retrieve or reset your wireless password.

Q4: What should I do if I forget my Web management page password?

- Check the Web password on the label at the bottom of the router.
- When the router is power on, use a pin to press and hold the RESET button on the back until the LED blinks. Then the password will restore to the default that marked on the label.
