Base Station Chime Installation Tips V1.0.1

Base Station Chime Placement

- Install the chime by plugging it into an outlet **near your doorbell**.
- Keep the chime within **3 meters (9.84 feet)** of the doorbell, with **no more than one wall in between**.

Doorbell Placement

- **Do not** install the doorbell on a **metal door or metal door frame**.
- Recommended to install the doorbell **1.4 to 1.5 meters (4.5 to 5 feet)** from the ground.

Devices Setup

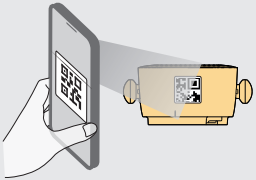

1. Download the Imou Life app.

2. Sign in. Tap "+" and select "Scan".

3. Scan the chime's QR code and follow the on-screen instructions to add it.

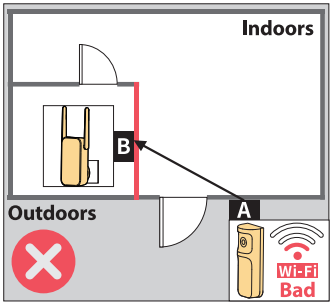

4. Press ⏻ 1-2 seconds to turn the doorbell on. It will automatically pair with the chime.

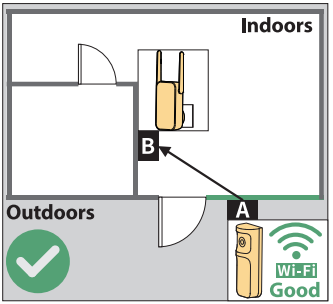

Placement Diagrams & Tutorials

A

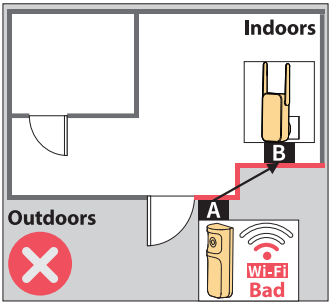

Wi-Fi signal may be degraded while traveling through walls.

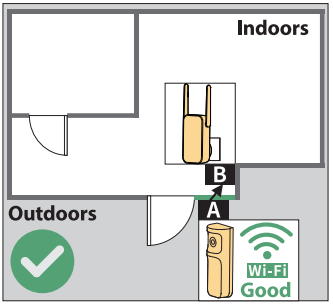

Maximize Wi-Fi strength by keeping no more than one wall/door between them.

B

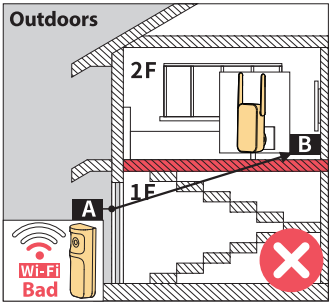

Wi-Fi signal may be blocked while passing through wall corners.

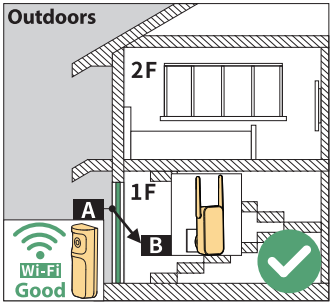

Optimize Wi-Fi strength by keeping no more than one wall/door between them.

C

Wi-Fi signal may be blocked and degraded while passing through walls and floors.

To achieve a stable Wi-Fi signal, keep both devices on the same floor and close together.
